For Bybrook Agriculture Ltd

Following The Council had previously considered this application and had submitted comments. Amended details had now been received and the Parish Council had been re-consulted. Following consideration **resolved that the Council would object to the proposals** as the fundamental objections remained and, as before, related to health, location and traffic.

Despite the re-positioning of the poultry houses further away from the nearest un-associated residential property in the long term the potential nuisance arising from smell and noise still existed. As before the suggestion that traffic controls could be put in place that would restrict traffic through the village and the narrow road network could not be guaranteed as there were few alternative routes available.

The Council determined that there remained serious reservations in regards to potential hazards from smell, disease transmission, noise, waste/effluent disposal,

proximity to existing property and loss of residential amenity, unsightly panoramic views given that the buildings were still away from the existing built form and importantly traffic and highway safety.

As before, additional large vehicle traffic adding to the existing high traffic volumes throughout the village where the High Street, with no passing spaces, was filled with parked vehicles 24 hourly and often needing to park on pavements to retain the narrowest of driving widths was impractical and unacceptable.

Cllr Macdonald proposed, Cllr Twisse seconded and RESOLVED UNANIMOUSLY

d) PL/2021/06100

The Council had previously considered this application and had submitted comments. Amended details had now been received and the Parish Council had been re-consulted. Following consideration of the application **the Council resolved to raise no objections and supported the proposals.**

In reaching this conclusion the Council was again mindful of the information provided with the application with particular reference to the landscaping proposals and also the revised access arrangements, using the A420 and B4039 albeit they affected the rural lanes/roads of the neighbouring Parishes. The Council wished to ensure that suitable Conditions regarding landscaping and also highway diversion routes were included in any permission given and that they would be well enforced by your Council.

Finally, it would be sensible if before and after surveys/photographs were produced to determine reinstatement of any damage caused by the works to highways and verges.
